# Liberal Studies

This interdisciplinary major is open only to Adult Degree Program students and is especially appropriate for students who wish to develop as thoughtful individuals with interests spanning several disciplines. This major is also suited to adults who have attended one or more colleges in their prior academic careers because many of its elective hours can be transferred.

## Career Planning Tactics

- Consider declaring a minor/concentration in education, psychology, educational studies, business management, , etc. that matches your career interests to increase job opportunities
- Do an internship in your field of interest to gain relevant experience and expand your network
- Become a volunteer at non-profit organizations that you are interested in working for
- Develop skills that are transferable across several industries—communication, analytical, problem-solving, interpersonal, etc—to increase your marketability to employers
